CABRERA ALMOST KILLED BY BOMB

Mine Exploded Under Carriage
of President of Guatemala
Yesterday

By Associated Press.

GUATEMALA, April 30.—Estrada Cabrera, president of Guatemala, narrowly escaped assassination today. He left his private residence this morning for his customary drive, accompanied by his staff. While passing along Seventh avenue an explosion at first supposed to have been caused by a bomb occurred, killing the horses attached to the presidential carriage, wounding the coachman and injuring several staff officers, including General Orellana, chief of staff.

The president, who was not injured, displayed great presence of mind.

Alighting from his carriage, he inspected his surroundings and then returned on foot to his residence. Careful examination showed that the explosion had been caused by a mine. The conspirators had dug a tunnel from one of a group of houses rented by a man named Rafael Rodol, placed explosives under the roadway, connected them by wire with a battery in Rodol's house and from there discharged the mine. Many suspects have been arrested.

Peace prevails throughout Guatemala and government officials say they have the situation well in hand.

Moonlight waiters are all the go. At Dreamland tonight.

Nothing but pure cream used in making our ice cream. Try a quart at the Opera House Confectionery.

LINDSAY FAILED TO APPEAR IN COURT

Lycurgus Lindsay, who usually abbreviates his historic first name to the initial "L," a local mining magnate, former owner of the Cananea Central mine and late promoter of the Llanos de Oro company, failed to appear before Justice H. A. Pierce yesterday to give his deposition in the suit pending at Duluth, Minn., with W. C. Greene, says a Los Angeles paper of April 25.

An attachment was issued for him, and officers are expected to bring him in at 10 o'clock this morning.

It was reported last night that he was in Mexico, but Justice Pierce stated that he was undoubtedly in this city, and simply avoiding service. The justice said that his whereabouts are known.

Lindsay is involved in a mass of litigation over recent deals in mines—the sale of the Cananea Central to a stock company and the Llanos de Oro deal. The present suit was brought by himself against W. C. Greene, to settle title to stock claimed by him. Mr. Greene desires to have his deposition taken. Mr. Lindsay, it is alleged, objects to testifying at this time, while other suits are pending which involve more or less the same matters.

All efforts of a reporter to locate him last night failed. Repeated telephone calls at his residence brought no response. Similar efforts to get his partner in the Tropico "The works and the cattle business, E. M. Durant, also failed. Lindsay maintains an office in the Grosche building.

The present suit was brought in Duluth, Minn., because the company was incorporated there. Other suits are pending in Arizona. They are all over the rights to stock and commission for selling the Cananea Central and the sale of the placer grounds at Altar, Sonora, announced at the time to "be the treasure house of the Montezumas," but which subsequently proved to be of little value, it is said.

Apologies of the distinction between Lake copper and electrolytic and the difference in price, a man who has just returned from the Lake region voiced decided views yesterday as to the sentimental absurdity of Lake copper commanding a distinctly higher price. This is an old question and he raised a point that attracted some attention in confidential copper circles some time ago, but which failed to reach public discussion. It is suggested, and, in fact, stated very positively that Electrolytic copper has been shipped to the Lake regions, reshipped from there as Lake copper, and coming by way of water to Buffalo, reaches New York as the genuine Lake product. The name of the offending company is withheld, but it is said that the practice is likely to be stopped summarily. Electrolytic copper as it comes from the converter in anodes and before being submitted to the refining process, contains about six-tenths of one per cent of foreign matter, which in the case of the Butte camps is principally gold and silver. The anodes are shipped east for refining, and freight paid on the impurities because it is cheaper to pay that freight than it would be subsequently, if the refining were done in the west, to pay insurance and expressage on the \$400,000 of gold and silver annually extracted from these anodes.

Sore Nipples

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the baby to nurse. Many trained nurses use this salve with best results. For sale by all druggists.

COPPER METAL MARKET

By Associated Press.

NEW YORK, April 30.—Copper was higher in London today, with spot quoted at \$104 10s and futures at \$102 10s. The improvement abroad seemed to be accompanied by the withdrawal of outside offerings and prices in the local market gradually advanced to nearer the views of the producers who claimed that the market is being unnecessarily depressed. Lake, 24.75 to 25.50; Electrolytic, 24.00 to 24.75; Casting, 27.75 to 23.25.

Lead was unchanged at 6.00 to 6.10 in the local market, but advanced to \$20 2s 6d in London.

Spelter advanced to \$26 in London, but was a shade lower at 6.50 to 6.60 locally.

Iron locally remained unchanged.

Bar silver, 66; Mexican dollars, 50 1/2.

Good Words for Chamberlain's Cough Remedy

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes as follows: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by all druggists.
